PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Developer with hands-on experience building responsive, user-friendly web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Passionate about creating clean, efficient code and delivering great user experiences. Completed BCA from GIST Brahmapur University with a CGPA above 8. Built and deployed 5 real-world projects including an E-commerce app, Weather app, Task Manager, Movie Search app, and a Portfolio website.

TECHNICAL SKILLS

Languages & Libraries: JavaScript (ES6+), React.js, HTML5, CSS3

Styling & UI: Tailwind CSS, Flexbox, CSS Grid, Responsive Design

React Ecosystem: React Hooks (useState, useEffect, useContext), React Router, Custom Hooks

Tools & Platforms: Git, GitHub, Vercel, VS Code, REST APIs, localStorage

PROJECTS

E-commerce Product Page | React.js + Tailwind CSS

- Built a fully functional e-commerce product listing page with filter by category and sort by price features
- Implemented add to cart, remove from cart, and real-time cart total calculation
- Designed responsive UI with Tailwind CSS including hover animations and smooth transitions

Live: ecommerce-app-swart-psi.vercel.app | GitHub: github.com/amansahu8062/ecommerce-app

Weather App | React.js + OpenWeatherMap API + Tailwind CSS

- Integrated OpenWeatherMap API to fetch and display real-time weather data for any city worldwide
- Features include live search, search history, dark/light mode toggle, and error handling
- Displays temperature, humidity, wind speed, weather icon, and feels-like temperature

Live: weather-app-27vu.vercel.app | GitHub: github.com/amansahu8062/weather-app

Task Manager App | React.js + Tailwind CSS + localStorage

- Built a full-featured task management app with add, complete, and delete task functionality
- Implemented filter by status (All/Active/Completed) and priority (High/Medium/Low)
- Tasks persist across browser sessions using localStorage with real-time stats dashboard

Live: todo-task-manager-225v6140i-alon14.vercel.app | GitHub: github.com/amansahu8062/TODO-task-manager

Movie Search App | React.js + OMDB API + Tailwind CSS

- Integrated OMDB API to search movies and display full details including plot, cast, director, ratings and awards
- Features dark/light mode toggle, year filter for precise search, and detailed movie popup
- Displays IMDB rating, Rotten Tomatoes score, box office collection, and full cast list

Live: movie-search-ruby-theta.vercel.app | GitHub: github.com/amansahu8062/movie-search

Portfolio Website | React.js + Tailwind CSS

- Designed and built a personal portfolio website showcasing all projects with live demo links
- Features smooth scroll navigation, responsive design, skills section with progress bars
- Includes contact section with direct email, LinkedIn, and GitHub links

Live: portfolio-website-puce-mu.vercel.app | GitHub: github.com/amansahu8062/portfolio

EDUCATION

Bachelor of Computer Applications (BCA)

GIST, Brahmapur University, Berhampur, Odisha | 2023 – 2026 | CGPA: 8.0+
